

Newsletter Week of 9/13

Math: We are continuing our place value unit. We will be comparing numbers and rounding next week.

Reading: We will be making connections and drawing inferences while reading. Ask your child about what is happening in our read aloud Wonder.

Science: We will be studying different ecosystems and the relationships in them. We will begin creating our own in the classroom.

Writing: We will be expanding on our seed ideas to create rough drafts.

FYI: We had a discussion today about when to eat snacks in the classroom and what types of snacks are easy to eat in the classroom as opposed to the cafeteria.

Look for information coming home next week about our school fundraiser.
