The goal of math club is to provide a fun environment where all students can learn new math skills, practice working together, and participate in the math competition experience. Setting clear expectations for conduct and outlining expectations can help to keep things fun for students, families, and volunteer coaches.

Please read the following information and sign below.

- I understand and will follow the Pine Lake Middle School beliefs of Community, Excellence, Respect, Discovery, and Integrity at all times I am with the club.

- I understand that cell phones are to be kept in backpacks during club time. Math club is a learning environment. Students are required to keep all cell phones and other devices in their backpacks during club time.

- I will come prepared to each club meeting with sharpened pencils, scratch paper, and a scientific calculator. While students may not need all of these tools every week, they should have them available.

- I will behave in a respectful way during math club. This includes when I speak to other students and to coaches.

- I understand that using the PLMS commons and classrooms for math club is a privilege, and that rooms should be left as clean as when I arrived. All students are expected to clean up paper, pencils, food wrappers, and other materials at the end of the club. Students are welcome to bring a snack to eat during club time.

- I understand that the final decision on team placement is up to the coaches. If I am selected for one of the Math Teams, I will accept the coach’s decision and participate on the team I am placed with.

- I understand that teams may change throughout the year. As each competition is different, coaches may decide to place students with different skills together, depending on the format of the contest. Last minute team changes may need to be made, due to illness or other circumstances, and teams with combined grade levels may also be necessary.

- I understand that, out of fairness to everyone, coaches will not be able to honor any individual student or family requests for team placement.

- I understand that cheating will not be tolerated, and is grounds for removal from the club.

- I understand that math club is for doing math. I agree to express a positive attitude toward math during club time and to participate in the scheduled activities without complaint.

- I understand that if I have questions or suggestions about math club activities, the coaches are always happy to discuss them with me during a break or at the end of math club. Students are welcomed to share their great ideas and helpful suggestions! Waiting until a break in activities or until the end of club time will be the best times to talk to the coaches.
