Shapes!

Worksheets and games perfect for centers or Daily math time!

http://toristeachertips.blogspot.com
Shape Facts-
This is a fun sheet to work on the student’s math facts. The next sheet can go on the back. The shapes on the next two slides can be helpful to the child when they create their own problems.

Shape BUMP- you will need two different colors of 10 unifix cubes or chips (one for each player). See sheet for directions.

Shape Picture- a fun way to draw and count shapes.

Congruent Concentration played like memory, the students match alike shapes.
Shape Facts!

Add or subtract the vertices of the shape equations below.

Example:

\[
\begin{array}{c}
\begin{array}{c}
\text{3} \\
\text{4}
\end{array}
\end{array}
\begin{array}{c}
\text{+}
\end{array}
\begin{array}{c}
\text{=}
\end{array}
\begin{array}{c}
\text{7}
\end{array}
\end{array}
\]

Now make your own on the back.

Make your own!

Draw shapes to add or subtract. Then solve your shape problem!
pentagon
5
rhombus
4
oval
0
dodecagon
12
dodecagon
12
SHAPE BUMP!

Roll the dice. Add or subtract the numbers. The number you add or subtract should match the number of sides of a shape. If there is a shape available, put your cube on the shape. If you have two cubes on that shape, it is yours! If only one cube of the other players is on the shape, BUMP it off!

http://toristeachertips.blogspot.com
What picture did you make?

What shape did you use the most of?

What shape did you use the least of?

I used more ______________ than ______________.

How many more? _______________________

Add all the shapes. How many did you draw? __________________
